

○ Misapplication of the names of subsections of the genus *Carex*  
(Shigeo AKIYAMA) 秋山茂雄: 極東亜産スゲ属植物 (1955) 中の亜節名誤用について

In his “*Carices of the Far Eastern Region of Asia* (1955)”, the author proposed subsect. *Thunbergiae* Akiyama and included in it several subsections formerly established. As the International Code of Botanical Nomenclature indicates that the name *Thunbergiae* is illegitimate, and subsect. *Bicornes* Tuckerm., the earliest name included in this subsection, is to be used. The author believes that the type species of the genus is *Carex acuta* L. (North Amer. Fl. 18-1: 10 (1931)), and subsect. *Thunbergiae* includes the characteristics of *Carex acuta* L., thus subsect. *Carex* should be used.

In the same way the author erroneously proposed the name subsect. *Nervatae* Akiyama (Type: *Carex nervata* Franch. et Sav.) in the same work. The author thinks it is sure that subsection includes the characters of *C. praecox* Christ. (type of the section), so we must use subsect. *Praecoces* and not subsect. *Nervatae* Akiyama.

**Carex** L. sect. **Carex** subsect. **Carex**

Syn. *Bicornes* Tuckerm. Enum. Meth. (1843) 12 partim.

*Rigidae* Fries Summa Veg. (1845) 72 et 232.

*Vulgares* Aschers. Fl. Brandenb. 1 (1864) 774.

*Caespitosae* Fries l.c. 226.

*Forsiculae* Franch. in Nouv. Arch. Mus. Paris 3. sér. 10 (1898) 102 p.p.

*Thunbergiae* Akiyama, Car. Far East. Reg. Asia (1955) 72.

**Carex** L. sect. **Praecoces** Christ. subsect. **Praecoces**

Syn. *Mitratae* Kuekenh. subsect. *Eu-Mitratae* Kuekenh. Cyper. Caric. (1909) 461 p.p.

Subsect. *Nervatae* Akiyama, Car. Far East. Reg. Asia (1955) 179.
